

Delivering Reliable Services and Extraordinary Projects for 80 Years

Monterey Mechanical is a financially solid, mid-sized industrial contractor and metal fabricator in business in California for 80 years. We specialize in complex industrial projects that include water and wastewater treatment plants, power generation facilities, and other complex industrial facilities. We generally self-perform all civil, structural, metal fabrication and installation, equipment erection, mechanical piping work, HVAC and odor control services.

In addition to large project work in the Bay Area, Monterey Mechanical has performed project work throughout California, Colorado, Alaska, Nevada, and internationally in Micronesia. Our reputation for delivering quality projects on time and within budget is well established. Size, experience, dependable quality and financial stability have made Monterey Mechanical one of the most versatile and respected contractors in industrial construction.

Monterey Mechanical is 100% employee-owned with a genuine commitment to 100% customer satisfaction. Our vision is to be the most respected contractor on the West Coast, and we have an unparalleled passion for that vision. This vision is supported by our core values.
